PREFACE.

That it has been possible to compile this Index has been largely due to the generosity of Major Robert A. Wilson, D.S.O., of Bulls, who undertook the cost of preparing the MS. On receipt of this it was carefully checked and amended by the Assistant Secretary (Miss Wood), and then distributed to referees in each branch of science for final revision as to the arrangement of the matter. For this work the thanks of the Board of Governors of the Institute are due to Professors Kirk, Easterfield, Marsden, and Cotton, Dr. C. M. Hector, Messrs. Elsdon Best, W. R. B. Oliver, and J. C. Andersen.

This Index is supplementary to the Index of volumes 1–40 published in 1911. Like it, it deals only with the authors and titles of the various papers and abstracts, and it includes the eleven volumes 41–51. No attempt has been made to index the actual subject-matter: and, whilst the two present volumes serve well enough as an index of authors, it is recognized that there is urgent need for a complete subject-index of the whole of the volumes issued. It is hoped that the Institute may be in a position to undertake this before very long.

Manuaute, or Maori Kite (Archdeacon Walsh), **45**, 375.

Maori and Maruiwi: Notes on Original Inhabitants of N.Z. and their Culture, &c. (E. Best), **48**, 435.

Maori Fish-hooks from Otago (H. D. Skinner), **51**, 267.

Maori Forest Lore (E. Best), **41**, 231; **42**, 433.

Maori Implement, A Very Rare—*Ahao* (A. K. Newman), **41**, 216.

Maori Life Fifty Years Ago, Reminiscences of (R. H. Matthews), **43**, 598.

Maori Numeration (Hare Hongi), **42**, 625.

Maori Rock-engravings in the Kaipara District (R. Buddle), **43**, 596.

Maori Stone Implements found at Tauranga (C. A. Semadeni), **45**, 385.

Maori Stone-quarry, An Ancient (H. D. Skinner), **46**, 324.

Maori Voyagers and their Vessels, &c. (E. Best), **48**, 447.

Method of snaring Birds used by Maoris, with Notes on a Bird known to Maoris as "Tiaka" (J. Drummond), **44**, Proc. III, 87.

Moa: Legendary, Historical, and Geological, &c. (H. Hill), **46**, 330.

Moa: New Light on the Period of Extinction (T. W. Downes), **48**, 426.

Poutini Ngai-Tahu, Customs and Traditions of the (H. D. Skinner), **43**, Proc. I, 10.

PHILOLOGY.

Language of Chatham Islands (H. W. Williams), **51**, 415.

Maori Names, Plea for Scientific Study of (H. W. Williams). **45**, 354.

Migrations of the Polynesians according to the Evidence of their Language (J. M. Brown), **44**, 189.

Oceanic Comparatives (C. E. Fox), **42**, 1.

BOTANY.

Aciphylla, with Descriptions of New Species (T. F. Cheeseman), **47**, 39.
Acorns and Leaves of Oaks grown at Greendale (T. W. Adams), **48**, 223.
Autecology of certain Plants of Peridotite Belt, Nelson: Structure of some of the Plants (M. W. Betts), **50**, 230; **51**, 136.
Botanical Evidence against Recent Glaciation of N.Z. (G. M. Thomson), **42**, 348.
Botanical Excursion to Long Island, near Stewart Island, with List of Species (D. L. Poppelwell), **49**, 167.
Botanical Excursion to Northern Portion of Eyre Mountains (D. L. Poppelwell), **45**, 288.
Botanical Notes on a Journey across the Tararuas (B. C. Aston), **42**, 13.
Botanical Results of Excursion to Upper Makarora Valley and Haast Pass, supported by List of Species observed (D. L. Poppelwell), **49**, 161.
Botanical Visit to Bunkers Island (D. L. Poppelwell), **50**, 154.
Botanical Visit to Coll or Bench Island (D. L. Poppelwell), **50**, 158.
Botanical Visit to Herekopere Island, Stewart Island (D. L. Poppelwell), **47**, 142.
Botanical Visit to Hollyford Valley and Martin Bay, with List of Indigenous Plants (D. L. Poppelwell and W. A. Thomson), **50**, 146.
Botany of Lake Hauroko District (J. C. Smith), **43**, 248.
Botany of Routebourn Valley and Lake Harris Saddle (D. L. Poppelwell), **46**, 22.
Botany of Ruggedy Mountains and Upper Freshwater Valley (D. L. Poppelwell), **45**, 278.
Botany of Spenser Mountains, with List of Species (R. M. Laing), **44**, 60.
Burmanniaceae, Discovery of a Species of (T. F. Cheeseman), **41**, 140.
Calluna vulgaris Salisb. in Taupo District, The Naturalization of (D. Petrie), **42**, 199.
Celmisia, Description of a New (T. F. Cheeseman), **46**, 21.
Cordyline australis, Aerial Rhizomes (L. Cockayne), **41**, 405.
Cotula from Chatham Islands, An Undescribed Species of (L. Cockayne), **47**, 119.
Cyperaceae - Caricoideae (G. Kükenthal), **42**, Proc. IV, 122.
Dactylanthus Taylori (H. Hill), **41**, 437.
Dathonia nuda and *Triodia Thomsoni* (D. Petrie), **44**, 188.
Deforestation in New Zealand (L. S. Gibbs), **43**, Proc. II. 54.
Discovery of *Dactylanthus Taylori* (J. Grant), **43**, Proc. III, 98.
Epilobium, Description of a New Species of (D. Petrie), **41**, 140.
Evolution, Observations concerning, derived from Ecological Studies in N.Z. (L. Cockayne), **44**, 1.
Ferns and Fern Allies of Mangonui County, with some Notes on Abnormal Forms (H. Carse), **47**, 76.
Flora and Vegetation of Lord Howe Island (W. R. B. Oliver), **49**, 94.
Flora of Mangonui County, Additions to (H. Carse), **45**, 276; **48**, 237.
Flora of Mangonui County, On the (H. Carse), **43**, 194.
Flora of Mount Egmont: a Correction (L. Cockayne), **43**, Proc. II, 49.

NEW ZEALAND INSTITUTE.

BULLETINS.

Under the title "Bulletins" the Board of Governors of the New Zealand Institute hopes to issue, from time to time, important papers which for any reason it is deemed desirable not to include in the yearly volume of the Transactions. The bulletins will be uniform in size and general style with the Transactions of the New Zealand Institute, but will appear at irregular intervals, and each bulletin will be complete in itself and be separately paged. The bulletins will not be issued free to members of the Institute, but may be obtained by them at a reduction on the published price.
